Section B

1. "My favourite toy is a stuffed teddy bear. I like it because it's soft and cuddly. I can hug it when I feel sad or pretend to play with it as if it's my friend." (Or any suitable answers by students)
2. "My favourite game to play with my friends is 'Duck, Duck, Goose.' In this game, we sit in a circle and one person is chosen as the 'Goose.' They walk around the circle, tapping each person's head and saying 'Duck.' But when they tap someone's head and say 'Goose,' that person has to get up and chase the 'Goose' around the circle. If the 'Goose' reaches the empty spot before getting caught, they stay as the 'Goose' for another round. But if they get caught, the person who caught them becomes the new 'Goose'. I enjoy playing this game because it's active, fun, and gets everyone involved. We get to run and chase each other, which makes us laugh and have a great time together. It's also exciting to be the 'Goose' and try to outrun my friends. Sometimes we even come up with silly variations or funny actions when we tap each other's heads. Overall, 'Duck, Duck, Goose' is a game that brings us joy and creates happy memories with my friends." (Or any suitable answers by students)
3. "If I could only keep three toys, I would choose my soccer ball, my LEGO set, and my colouring book with crayons. I love playing soccer, so the ball allows me to have fun outdoors and improve my skills. The LEGO set lets me build different things and use my imagination. The colouring book and crayons help me relax and be creative by colouring beautiful pictures. These toys bring me joy and allow me to have different types of play experiences." (Or any suitable answers by students)
