

Performance-based (Classroom Activity)

English Year 1

Module 1: At School

Activity: Classroom Objects Showcase

Instructions:

1. Divide the class into small groups of 3-4 students.
2. Explain to the students that they will be creating a mini showcase of classroom objects.
3. Assign each group a specific category of classroom objects (e.g., writing tools, stationery, furniture, books).
4. Provide each group with a collection of real or visual representations of the objects in their assigned category.
5. Give the groups time to plan and prepare their showcase. They should come up with a creative way to present the objects to the class.
6. Encourage the groups to think about how they can use their imagination and language skills to make the showcase engaging and informative. They can create a skit, a game, or a role-play related to the objects.
7. Once the groups have prepared their showcases, allow each group to present to the class. They should introduce their category of objects, describe the objects, and explain their purpose or use.
8. Encourage the audience to actively participate by asking questions about the objects or giving their own descriptions.
9. After each presentation, engage the class in a discussion about the showcased objects. Encourage students to use vocabulary words related to the objects and ask follow-up questions.
10. Conclude the activity with a recap of the showcased objects and their vocabulary. Encourage students to reflect on what they have learned during the activity.
