

Performance-based (Classroom Activity)

English Year 6

Starter Unit: Welcome

Instructions:

1. Divide the class into small groups of 4-5 students.
2. Assign each group a "Guess Who?" character or profession. Provide a description of the character's personality traits and profession to each group.
3. Each group should create a set of clue cards with hints related to their assigned character's personality and profession.
4. Encourage the groups to be creative with their clues. They can use words, phrases, or drawings to represent their personality traits or profession.
5. Once the clue cards are ready, have each group take turns presenting their clues to the other groups.
6. The other groups will listen to the clues and try to guess the character or profession being described.
7. After each presentation, allow time for the other groups to discuss and make their guesses.
8. Once all the groups have presented their clues, gather everyone together for a class discussion.
9. Ask each group to reveal the correct answer and explain the reasoning behind their clues.
10. Engage the whole class in a reflection on the activity, discussing how personal information and professions can be perceived differently based on personality traits.
