- c) mouth
- d) nose

10. We use our _____ to walk.

Section B

Answer all the questions below.

1. Which are the three body parts you use when you eat? Describe how you use each of them.

2. Imagine you have a robot friend. Which body parts would you give the robot? Explain the functions of each body part and how it would help the robot in its daily activities.

3. Think about the body parts you have learnt. Choose one body part and describe its importance in your daily life. How does it help you in various activities or tasks?

Section C

Activity: Design Your Own Robot

Instructions:

1. Imagine you have the opportunity to design your very own robot. Your robot can have special features and abilities.
2. Create a drawing or use art materials to design and illustrate your robot. Be as creative as possible!
3. Write a short description (2-3 sentences) explaining the features and abilities of your robot.
4. Optional: Give your robot a name and write it on your drawing.
5. Present your robot to the class. Explain your robot's name, features, and abilities. Use simple sentences to describe how your robot can help you or do specific tasks.

Answer Scheme
Worksheet
English Year 2
Module 8: The Robot

Section A

1. eyes
2. True
3. b) nose
4. mouth
5. True
6. b) ear
7. tongue
8. True
9. c) mouth
10. legs

Section B

Sample Answers

1. When I eat, I use my mouth to bite and chew the food. I use my hands to hold the utensils or pick up the food, and I use my teeth to help break down the food into smaller pieces. (Or any suitable answers by students)
2. If I had a robot friend, I would give it hands, eyes, and legs. The hands would allow the robot to grab and hold objects, the eyes would help it see and navigate its surroundings, and the legs would enable it to move and explore different places. (Or any suitable answers by students)
3. The eyes are an important body part of my daily life. They help me see the world around me, read books, and watch movies. They also help me recognize people's faces and appreciate the beauty of nature. (Or any suitable answers by students)

Section C

Any suitable answers by students.
