

Performance-based (Classroom Activity)

English Year 4

Module 3: In The Past

Activity: Time Travelers Exhibition

Instructions:

1. Divide the class into small groups and assign each group a different ancient culture (e.g., Egypt, Greece, China, Mayan).
2. Provide the groups with images or artefacts representing their assigned culture. They can use these as inspiration for their exhibition.
3. Instruct each group to create a mini-exhibition showcasing the important aspects of their assigned ancient culture.
4. Each group should research and gather information about their culture's history, significant events, daily life, traditions, architecture, art, and any other relevant aspects.
5. Students should create visual displays using construction paper, markers, and other art supplies to represent the different aspects of their culture.
6. Encourage students to be creative and interactive in their displays. They can include maps, timelines, drawings, artefacts, and informative captions to engage viewers.
7. Once the groups have completed their mini-exhibitions, provide them with time to present their displays to the class.
8. Encourage students to ask questions and engage in discussions about each culture.
9. After the presentations, facilitate a class discussion to compare and contrast the different ancient cultures and their contributions to human history.
